EDUCATION

Madhuben and Bhanubhai Patel Institute of Technology

2022 – 2026

B.Tech - Information Technology - CGPA: 8.58

Anand, India

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Network Security
- Artificial Intelligence
- Machine Learning
- Database Management System
- OOPS Concept
- Generative AI
- Operating Systems
- Cloud Computing
- Deep Learning

PROJECTS

Real-time Stock Market Trading Dashboard | Power BI, Yahoo Finance API, Streamlit 02 2024

- Developed an analytics platform integrating **Power BI** with **Yahoo Finance API** for real-time stock market data visualization.
- Created dashboards displaying OHLC data, volume analysis, and PE ratios through custom visualizations like candlestick charts.
- Implemented secure login functionality and ticker-based search with multiple time-frame analysis options for informed trading decisions.

Predictive Maintenance for Industrial Equipment | Python, XGBoost, React 05 2023

- Built an ML system using **XGBoost** to forecast equipment failures and predict remaining useful life with high accuracy.
- Created a React web application with real-time monitoring dashboards and automated maintenance scheduling.
- Integrated multi-channel alerts through browsers and Telegram to notify maintenance teams of potential equipment failures.

Online Library Management System | PHP, MySQL, HTML/CSS 11 2023

- Developed a web-based library system with dual-module architecture for admin and student portals.
- Implemented admin features for book inventory management and student interface for account/book management.
- Created a responsive design with intuitive navigation, search functionality, and automated email notifications for due dates.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL

Technologies/Frameworks: Git, scikit-learn, NumPy, Pandas, Matplotlib, Power BI, React, Streamlit, XGBoost

Cloud Technologies: IBM Cloud

LEADERSHIP EXPERIENCE

IEEE Student Branch - MBIT 03 2023 – Present

Student Branch Representative

Anand, India

- Served as a liaison between the local branch and broader IEEE organization, managing branch operations effectively.
- Increased student membership through outreach initiatives and secured funding for projects and competitions.
- Strengthened leadership, event management, and communication skills while fostering a collaborative engineering community.
- Organized technical workshops and coordinated participation in regional IEEE conferences and competitions.

Gujarat Council on Science and Technology 10 2023 – 11 2023

Volunteer Coordinator

Anand, India

- **Assisted** in setting up electronic components and Arduino kits for participants.
- **Guided** students through basic electronics concepts and Arduino programming tasks.
- **Managed** participant queries and provided support during project development phases.
- **Organized** workshop materials and maintained technical equipment for 50+ participants.

CERTIFICATIONS

• Core Java Specialization - Coursera • Linux Commands and Shell Scripting • Introduction to SQL • Networking in Google Cloud • C Programming: Advanced Data Types
